

Dedicated to the Preservation and Education of Wireless, Radio, Television and Associated Equipment

Volume 27, Issue 6

The November 13th Meeting is at the Miller Library in Castle Rock

Nov/Dec 2016

Pictures and Results from the Annual Antique Radio Club Auction

The annual radio club auction and BBQ was held September 16, 2016. The club auctioned 251 lots of radios, televisions, documentation, parts, test equipment and associated items for a total of nearly \$7,000. By all measures it was a great success. Results of auction begin on page three. Items that have \$0 didn't sell and items in parenthesis (\$0) didn't meet the reserve shown in the parenthesis

Message from the President

Since the last edition of the Flash, the club has been busy. We had our regular meeting in Castle Rock on August 28th, had a great auction/barbeque on September 18th, and we had a special auction/sale on Oct 22nd/23rd.

We had our annual BBQ and auction on September 18th, on a beautiful day, and saw one of the better turnouts and largest number of lots ever! Unfortunately I was unable to attend but the reports I have received were all indicative of a great event and a job well done by the club! As you can see from the photos and item list in this issue, there were some very unique and collectable radios sold as well as many fixer-uppers. Special thanks to Steve Ciotti and Jack Heavey for their donated items whose proceeds went to the club.

Many thanks go out to all the volunteers who pitched in ahead of time and during the event. Robert Baumann and Steve Touzalin and Tom Pouliot for helping with preparing the Malensek and Mark Anderson estate items, and also helping move these and Steve Ciotti's donations to the auction. Rich Kuberski for providing this fine venue and bringing tables. Alexis Alexandridis and Larry Weide who teamed to operate the software and hardware that makes the auction run. Tom Pouliot and also Cliff Shelby for performing smooth auctioneering. Wayne Russert for getting the food and supplies. Chef Bill Busch who cooked up those burgers and dogs. Don Andrus for bringing the drinks and tables. And Merril for handling the dough. And all of the guys that helped get the message out beforehand, helped move around the radios during the auction, took pictures and cleaned up afterwards. And all of you who came to participate! I wasn't there, so I may have missed recognizing someone's contribution, but thanks to all! This truly was a great team effort that the club always enjoys and it raised some money for the club!

The August 28th meeting was a good one, with preparation for the BBQ/auction being a main topic, and lots of fine "show and tells" and some fun raffle items. We even had a guest, Peter, who brought his very rare Martian crystal radio to show the club and discuss it. There was a good interchange during the meeting and during the break

about this unique set.

This edition of the *Flash* marks the debut newsletter by our new Editor, Alan Burch! Many thanks to Alan for stepping up to this important job. And thanks to Rich Kuberski for the many years of excellent "editing". As with all of our club activities, it takes volunteers to make this club work. So pitch in when you can!

As time goes on, the club is continually contacted by people wishing to sell or donate radios to the club. If the timing is right or someone can store the donations, they can end up at the annual auction. The

club benefits financially and the members benefit individually from being able to acquire unique radios, parts and equipment. If the timing isn't right or there is too much stuff for the annual auction to handle, the club will have to decide how to proceed. In the case of the recent Oct 22/23rd sale/auction, the club had a great opportunity to benefit, so we held this special event. We helped liquidate the estate of Mark Anderson's uncle, Mr. Lonquist. It was a very productive event in terms of helping Mark and his family, many club members acquired unique items, and the club received a check of over \$1000 for assisting in this sale.

I want to keep stressing that we can all benefit if we are all on the egroup. Also make sure your email address is correct on the roster. When we have special sales and notices the egroup is the only way for us to effectively and cheaply communicate. See the panel at the right on this page for contacting Mike McCutcheon about joining, or if you want to post a message or question to the egroup. For this last sale on Oct 22nd I knew that all of us are not on the egroup so I also sent out to the email address listed on the CRC roster, and found out that there are many addresses that bounce back. Let's fix that.

Please note that the upcoming November 13th meeting will be in Castle Rock. See you there.

Tom Zaczek

CRC Auction and Estate Sale

On October 22nd and 23rd, 2016, the CRC helped liquidate the radio and equipment estate of a longtime Aurora Radioman.

His nephew Mark contacted us and agreed to hold a sale and auction in the backyard of the house. The club helped Mark sell about 25 lots at The September club auction but there was still a lot to sell. We auctioned about 50 lots of tubes and 50 lots of radios and many boxes of parts and hand built radios were sold.

Wanted

Broadcast or recording mics, especially from 20's to 1950's.
Crosley Pup Info
NBC chimes, all eras.
Tom Keeton 303-797-8073

For Sale

Patterson PR-10, 1933 Amateur Radio Receiver.

10 tubes, fully electronically restored. View on the internet.

Best reasonable offer.

David Boyle. 303-681-3258

For Sale

I have collected radios of all types for 30 years and now it is time to let them go to new homes.

Please call me for an appointment to see if any of them would fit in your collection.

I have tube radios including Tombstone, Cathedral, and Novelty etc.

I also have a large collection of transistor radios both shirt pocket and Novelty type.

Please call 303-238-1384

Thanks in advance,

Ron Smith RADIOS4US@aol.com

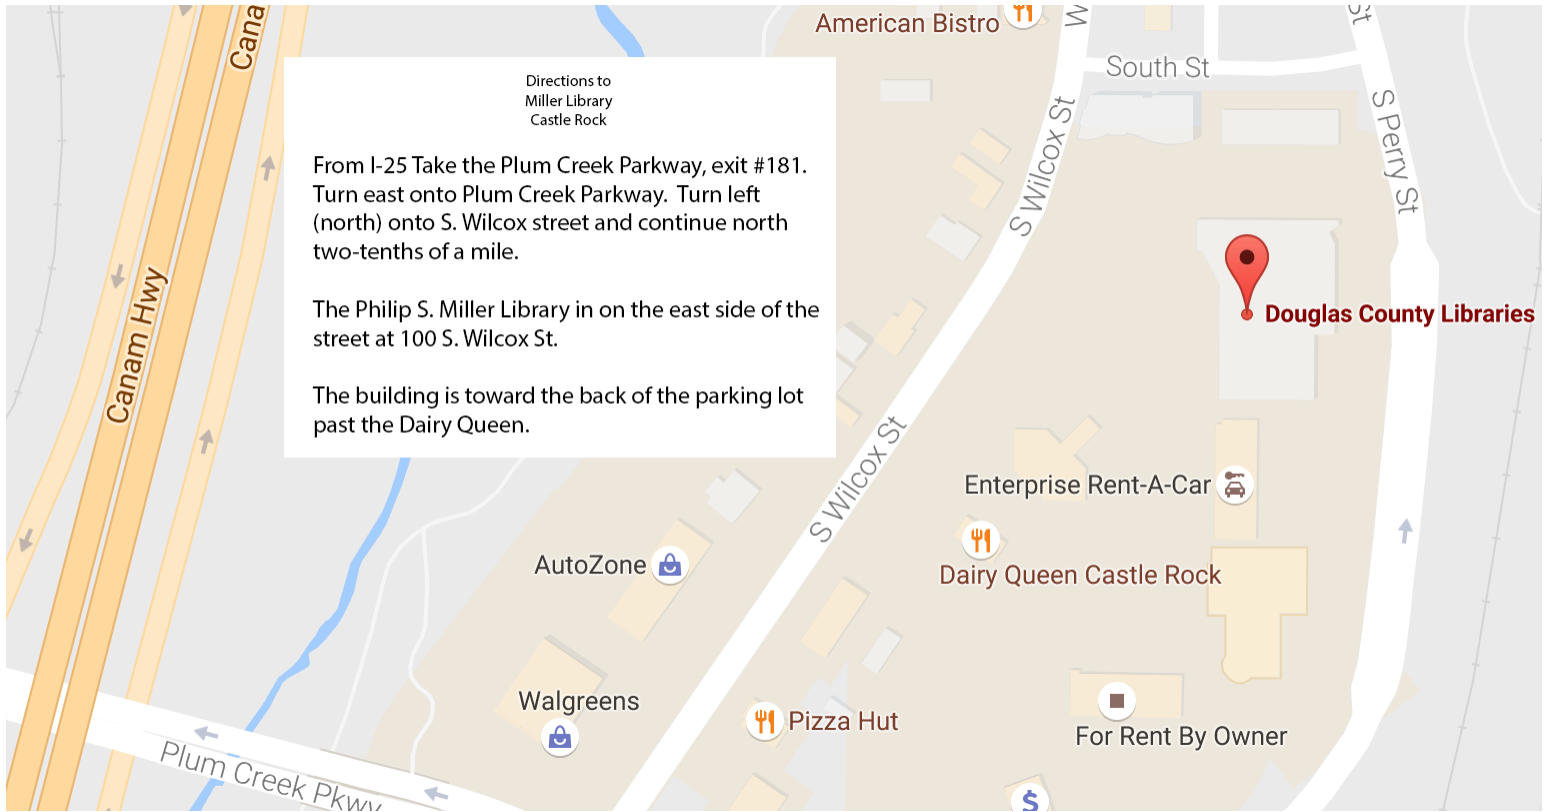

WANTED

1980s Atari 520 or 1040 ST computer components (keyboard, monitor, etc.). I still need it for several specialized programs I wrote including a simulator for transistor and tube circuits. Dave Laude dlaude1@msn.com
