Next meeting November 10th

Nov./Dec. 2024

## The Annual CRC Auction and Barbeque Sunday, September 15, 2024

This was the 18<sup>th</sup> time since 2005 that this event has been held in the outdoor grill and picnic pavilion area graciously provided by the Tectonic Management Group located in Wheat Ridge. (*This event was canceled in 2020 & 2021 due to Covid 19.*) Longtime CRC member Rich Kuberski has always volunteered to be the event coordinator and is the official liaison with Tectonic. We thank you Rich!

Rich opened the gate to the area around 8 am. Volunteers moved the picnic tables out from under the pavilion and cleaned them while other members started to bring in their items.

The grill

By 10:00 the place was a beehive of activity. Members continued bringing in their auction items and were socializing with others. The grill had been lit and the serving line preparations were made by Larry Snyder. Don Andrus brought in the ice-cold sodas and setup that table. Bill Busch was the cook, as he has been for the last several years, but since he has his arm in a sling due to a troublesome shoulder, Larry assisted him. While the 'cooks' were jointly flipping the burgers & hot dogs, Joan Snyder jumped in to assist them; making sure the serving line trays were refilled with buns etc., when needed, to keep the line moving smoothly.

Tom Pouliot was the auctioneer, with Merrill Campbell, Wayne Russert, Marty Phillips, Jerry Stone, Don Andrus, Tim Ritty, and Dan Houfek assisting in finding the items and moving the Lots across the presentation tables. Steve Touzalin and Paul Heller managed the computer desk, keeping track of the Sellers and the Buyers and other related auction details. Merrill Campbell and his wife collected money from the sellers and distributed the proceeds from the auction to the buyers.

Jerry Stone produced a video during the auction and **accepted the role of Videographer** for the CRC. Many of the photos in this article are screen shots from his video, which can be seen in its entirety at by clicking on <https://tinyurl.com/crcauction>

It turned out to be a partially sunny day with pleasantly mild temperatures although it did drizzle at the very end; but the paying-up, loading-out, and the cleanup activities were unhampered.

(continued on page 3)

Newsletter for The **Colorado Radio Collectors** club, founded in the Fall of 1988.

"Dedicated to the preservation and education of wireless, antique radio, television and associated equipment."

**CRC MEETINGS:** Meetings are held on the 2nd Sunday of every other month starting in January (except May is the 3rd Sunday) at 1:00 pm. The meetings consist of business, "show & tell", raffles, auctions, swap meets, technical discussions and other subjects of interest. Visitors are welcome!!

**CRC MEMBERSHIP:** Current annual dues are \$20 and membership in the CRC runs from January to January. New memberships will be prorated to the following January. Members are entitled to attend meetings, participate in our Spring show and our Fall auction, and receive our newsletter, **The Flash!**. Submit dues payable to: **Merril Campbell - 4723 Woodbury Dr. - Colorado Springs, CO 80915**

**UPCOMING EVENTS:** Nov. 10th, 2024 CRC meeting - The Rocky Mountain Music Museum, 3535 S. Irving St, Englewood, Co 80110. Jan. 12th, 2025 CRC meeting - location TBD. March 9th, 2025 CRC meeting - location TBD. April 13th, 2025 - Vintage Voltage, Nat. Western Complex.

## MESSAGE FROM THE PRESIDENT

\$7040. 191 items. \$2444. Those are incredible numbers. Read more in the Flash to understand what they mean.

What an auction. It was a huge success. The volunteers (you know who you are) were essential to that. Thank you, each of you. No matter what job you did, large or small, it is very much appreciated. And to those who did not volunteer, please consider doing so in the future. Many of our club members have been doing the same job for years now and they are getting tired. I am grateful that, each time I call on them, they step up. We are fortunate to have such members in our club. But we need others to take over some of these jobs.

The weather was perfect and attendance was high. The food was great. And those radios! Wow. If you missed it, check out Jerry's video. And yet, we have learned a few things as well that we need to do better or differently. We will discuss those in the our next meeting.

Our newsletter is reaching other clubs, just as theirs are reaching us. Thanks to Steve Touzalin for making that happen. It is fun to see a response from Tom Perera, W1TP. I have met Tom a few times. Once many years ago at the Vintage Computer Festival in New Jersey, where he let me touch and use an Enigma machine. He, his son Dan, and I sat at dinner together and their enigma rescue stories were amazing. And twice at the Ham Radio convention in Friedrichshafen, Germany, where he has a display every year. Tom is known worldwide as an expert on the Enigma machine. He's also a great ham. Check out his links featured in this issue for some great videos, and also the link to his website.

Our next meeting will be in a fun location. See the last page of this issue for location details. You won't want to miss this one, and be sure to bring along some show and tell items.

*Paul*

(continued from page 1)

We are grateful for the all the many other club and family members that volunteered their time and efforts, from the planning stage, through the execution stage, to the final clean-up that made this auction and the barbeque the enormous success that it was!

We also thank Steve Ciotti, Jack Heavey, Paul Heller, Marty Phillips, Tom Ritty, and Wayne Russert for donating the proceeds from the sales of their radios to the club.

## Auction Results

- 241 items were auctioned. 191 items sold and 43 items were "no sale".
- The sales totaled \$7040. \$4596 going to the sellers and \$2444 to the club.
- The \$2444 consists of \$529 from sales commissions & \$1920 from donated items.
- The total expenses for food, drinks, and other supplies was \$758.22.
- The net profit for the event was therefore \$1690.78. (\$2444 - \$758.22)

- 
- The 4 highest price items were:

\$775 Globe Radio - 1930's

\$700 Emerson 8LW-267A2 1941 Catalin

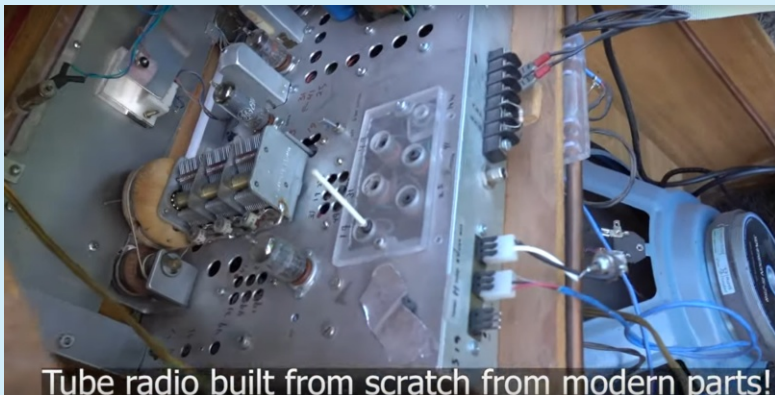

\$300 Zenith Model 12S265 Shutter dial

\$255 Westinghouse Type RC w/original box

## CRC Items Vs. Price Chart

# The Latest CRC Club News

The September 8, 2024, club meeting was held in The Douglas County Library located in Castle Rock. Paul Heller called the meeting to order and welcomed the 23 attendees. Some members arrived a little late because the library parking lot was extremely full due to a Fall Festival was being held nearby.

The "Great Radio Giveaway" of Larry Weide's radio collection that club members Wayne Russert and others had been keeping in "temporary" storage for many months was held on two consecutive Saturdays, August 3rd and 10th in Wayne Russert's 'Dear Trail Ranch' barn in Castle Rock. Photos of the radios were available on the club website for previewing and reserving desired pieces in advance. The vast majority of the giveaway items were picked up, or reserved, by late in the day on August 3. On August 10th the remaining reserved items were picked up. Only 4 nice consoles, some loose speakers, and a few small misc. pieces were all that remained. These 4 remaining consoles were picked-up on Aug. 28, 2024, by Gordon Close, president of the **Rocky Mountain Music Museum**. Some of you may remember we had a meeting in this museum on November 11, 2018. It was named **Melody Music and Elite Sound** back then. It is found near the SW corner of Federal & 285. See Vol. 29-5 of the Flash for the site map which is also at the end of this Flash and Vol. 30-1 for photos of that meeting inside the museum.

A very special thanks to Wayne Russert, and the several other club members, for storing the many items and providing donuts and lemonade to attendees of the Giveaway. And also, to Paul Heller for managing the online advance reservation system.

## Letters to the Editor

In the previous edition of the Flash, Vol. 34-5, Don Andrus had written an article describing how the German Enigma machines worked. This article sparked a Letter-to-the-Editor so to speak; actually, it was an email, but you get the idea. Anyway, the email was from Tom Perera Ph.D., it read in part..

*Greg Van Beek has been forwarding your newsletter to some of us in the New New England Vintage Electronics Club and I wonder whether you could fit in this classified that might be of interest to some of your members especially after you published the article on Enigma machines.*

We decided to place Tom Perera's information here, in the club news section instead of in the classified ads, so there was space to write a lead-in to his material and site links.

It is heart-warming to know that our newsletter gets shared with other clubs; and they in-turn share it with other clubs, and other people.

Tom Perera Ph. D.  
 Professor Emeritus: MSU  
 Email: [Tom@EnigmaMuseum.com](mailto:Tom@EnigmaMuseum.com)  
 Emigma Museum: [www.EmigmaMuseum.com](http://www.EmigmaMuseum.com)  
 Telegraph/Scientific Museum: [TomPerera.com](http://TomPerera.com)

Some Telegraph Keys  
in his Museum

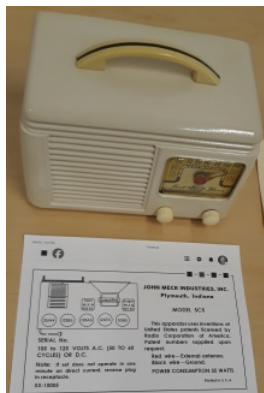

He also offered links to the following recordings of his talks on Enigmas and telegraph keys.  
*Inside Enigma: History, Technology and Cracking the Secret German Enigma Codes of WWII*

### Show and Tell

Marty Phillips brought in a shiny chrome-plated 1939 Scott Lab Phantom chassis and power supply that he will bring to the upcoming auction. (Oops! no photo available)

Don Houfek brought in a box of Majestic & other tubes and a TV related device that he was seeking more information on. There was speculation that it may be part of a TV motor control.

Merril Campbell brought in an Meck 5C5 radio and explained how he found an image of the missing tube layout paper for the bottom of the set on the Antique Radios Facebook page. He used hairspray to age the paper once he printed it out.

Mike Cook discussed his Atwater Kent Model 1 breadboard radio

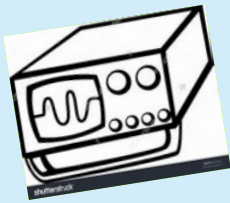

After Show & Tell Bill Kohl, Bill Lettlow, and Marty Phillips were invited by Paul Heller to stand up and talk about their backgrounds, how they became interested in radios, and other hobbies that they have, etc. This was a very informative way to spend some time getting to know a little more about our fellow club members.

### The Raffle Table

The raffle table held the usual fare of radios, including transistors and a couple of fixer-uppers, several nice meters, many technical books, and a variety of related paraphernalia.

# Classified Ads

Ads are free for CRC members. To place an ad send your ad description along with personal contact information to Steve at [stevetou@comcast.net](mailto:stevetou@comcast.net) or Larry at [Lsnyder200@cs.com](mailto:Lsnyder200@cs.com).

[Lsnyder200@cs.com](mailto:Lsnyder200@cs.com)

**A special CRC Meeting, November 10th,  
at **The Rocky Mountain Music Museum**,  
located at 3535 S. Irving St, Englewood, CO 80110, at 1 PM.**

## Directions:

**Special note from Gordon:** Get to W. Hampden (285) and S. Federal intersection. There is a McDonalds right there, turn up that street west, go thru some houses and a business into a cul-de-sac facing Tice Electric and a skate park, go to the left around to rear of building and enter through door with a guitar neck on it. Park at an angle against fence and we can get more cars there. If not park in front and walk back...sorry!
